## ORDER PLACING PUBLIC HEALTH ACTIVITIES UNDER ONE CONTROL.

### EXECUTIVE ORDER.

Whereas in order to avoid confusion in policies, duplication of effort, and to bring about more effective results, unity of control in the administration of the public health activities of the Federal Government is obviously essential, and has been so recognized by acts of Congress creating in the Treasury Department a Public Health Service, and specially authorizing such service "to study the diseases of man and the conditions influencing the propagation and spread thereof" and "to cooperate with and aid State and municipal boards of health":

WOODROW WILSON.
